S2MAUI BOOMS!

To complement *S2Maui*'s premium sails and masts we are pleased to introduce a performance line of carbon monocoque booms. *S2Maui* booms are built with high stiffness and high strength pre preg carbon layups. For *S2Maui*'s Race booms, we have boosted the reinforcement even further for extra stiffness. To ensure the most solid connection to the mast, all *S2Maui* slalom and race boom front ends include *S2 Maui*'s new, original *Contour Grip*™ oversized rubber pad inside the clamp which conforms perfectly to modern race mast diameters. *S2Maui*'s *Contour Grip*™ front end pad provides a much closer connection and eliminates play, ensuring maximum stiffness.

S2Maui Carbon Booms

Model	Length (cm)	Diameter (mm)	Weight (kg)	Tail Structure/Width
Carbon WAVE SLIM 140	140-200	24.5	2.2	Internal*, Medium Tail
Carbon FREERIDE 160	160-220	27.0	2.5	Internal*, Medium Tail
Carbon SLALOM/RACE/FREERIDE 174	174-230	27.5	2.7	Internal*, Wide Tail
Carbon SLALOM/RACE 190	190-240	28.5	3.0	External*, Wide Tail
Carbon SLALOM/RACE 210	210-260	28.5	3.4	External*, Wide Tail

* Internal tail is “normal,” with tail body inside boom body.

** External tail is special stiffer, wider construction for race boom with tail body outside of boom body.

Ultimate Stiffness 190+ Slalom/Race Booms

S2Maui Carbon SLALOM/RACE 190

S2Maui's unique ***Contour Grip***™ oversize front end pad provides a rock solid connection. Maximum stiffness carbon lay-up, 190-240cm length, 28.5mm diameter grip and oversize, external wide tail for high powered racing on medium and larger size **VENOM** and **V-FR** race sails

S2Maui Carbon SLALOM/RACE 210

The ***Contour Grip***™ oversize front end pad ensures a rock solid connection. Maximum stiffness carbon lay-up, 210-260 length, 28.5mm diameter grip and oversize, external extra-wide tail for high powered racing on large size **VENOM** and **V-FR** race sails.

Ultimate Stiffness Slalom/Race/Freeride Booms

S2Maui Carbon SLALOM/RACE FREERIDE 174

*S2Maui's unique **Contour Grip**™ oversize front end pad provides a rock solid connection. Stiff and comfortable 27.5 mm grip section with 174-230 cm length and wide tail fits perfectly with small and mid-sized **VENOM** race and **WICKED** freerace sails.*

Super-skinny Wave and Performance Freeride

S2Maui Carbon WAVE SLIM 140

Super Skinny with maximum stiffness. The small 24.5 mm diameter feels amazing for this, but most importantly, the boom is stiff and strong. Medium width tail piece gives nice clearance to keep the belly of the sail from hitting the boom. The generous 140-200 length comfortably handles a large range of sails.

S2Maui Carbon FREERIDE 160

Versatile 160-220 cm size with excellent stiffness. With its moderate and even stiffer 27mm grip, it works perfectly with the **BANSHEE** range of Freeride sails, larger wavesails and small to medium size **WICKED**'s.
